

*The Global Champion for Environmental Education*

The Global Environmental Education Partnership (GEEP) seeks to use the power of education to create a sustainable and just future where people and nature thrive, and where environmental and social responsibility drive individual, community, and institutional choices.

**MISSION AND OBJECTIVES**

The GEEP is working to create a vibrant and inclusive learning network designed to build capacity in countries around the world to strengthen environmental education leading to a more sustainable future.

**We work to:**

- Connect and build bridges among practitioners, researchers, policy makers, institutions, providers, and international networks to elevate effective practice, scale impact, share global resources, and catalyze collaboration
- Demonstrate the value and impact of EE as a tool for achieving the SDGs
- Support, mentor, and empower a new generation of innovative and inspirational leaders to shape the future
- Build a global fund to sustain the field and advance our collective work
- Promote Innovation through a Global EE Think Tank

**KEY INITIATIVES**

- **Strengthening Networks**  
Country profiles highlight environmental education (EE) efforts happening in countries at the national level—from policy to practice to people—helping people and organizations make valuable connections.
- **Building Leadership**  
EE 30 Under 30 recognizes individuals worldwide who are making a difference through environmental education, shining a spotlight on their efforts and providing them with resources to advance their inspiring careers.
- **Effective Practice**  
GEEP case studies share effective practice with a focus on key lessons learned that can be adapted for a variety of cultural contexts, geographies, and environmental and social issues.
- **Fostering Action**  
The Global Call to Action seeks to spark discussion and spur action on key priorities for the field of environmental education over the next decade and beyond, through the 10 Actions for the Future and the Global EE Pledge.
